Operating instructions

V-ZUG-Home

Thank you for choosing to buy one of our products. Your appliance is made to high standards and is easy to use. Nevertheless, please take the time to read these operating instructions in order to familiarize yourself with V-ZUG-Home and get the best use out of the appliance.

Please follow the safety precautions.

Modifications

Text, diagrams and data correspond to the technical standard of the appliance at the time these operating instructions went to press. The right to make technical modifications for the purpose of the further development of the appliances is reserved.

Validity

These operating instructions apply to:

All appliances with V-ZUG-Home.
Variations depending on the model are noted in the text.

1 Safety warnings

1.1 Symbols used

Denotes important safety precautions.
Failure to observe said precautions can result in injury or in damage to the appliance or fittings!

Information and precautions that should be observed.

Information on disposal

Information about the Operating Instructions

▸ Indicates step-by-step instructions.
  – Describes how the appliance reacts to the steps taken.
▪ Indicates a list.

1.2 General safety precautions

▪ Read the operating instructions before using the appliance for the first time.

1.3 Appliance-specific notes

Before using for the first time

▪ Internet access is required for full use of V-ZUG-Home.
▪ Before using a newly installed appliance for the first time, please follow the tips in the «Using for the first time» section (see page 5).

Correct use

▪ Any repairs, modifications or manipulations to the appliance, especially any electrically live parts, may only be carried out by the manufacturer, its Customer Services or a similarly qualified person. Repairs if carried out incorrectly may cause serious injury, damage to the appliance and fittings, as well as affect the functioning of the appliance. If the appliance is not working properly or in case a repair is needed, follow the instructions given in the «Service and support» section. Please contact our Customer Services if necessary.

Note on use

▪ During operation, microwave appliances can interfere with the WLAN network. In certain circumstances this may lead to limitations on the use of V-ZUG-Home or other applications that communicate via WLAN. Where possible, select the «automatic» channel setting on your WLAN router and avoid channels 8–13.
▪ The V-ZUG-Home module operates at a frequency band of 2.4–2.5 Ghz and has a maximum radiated transmission power of 20 dBm.

2 Using for the first time

2.1 Conditions

The following conditions must be met for full use of V-ZUG-Home:

- Access to the internet and to Google Play™ Store / App Store®
- Smartphone or tablet that is connected to the home network
- System requirements for smartphone or tablet: from Android 6.0 or from iOS 11.0
- For connection via WLAN only: a wireless network that meets one of the following standards: 2.4GHz 802.11 b/g/n

Google Play™ is a trademark of Google Inc.

Apple and the Apple logo are trademarks of Apple Inc., registered in the U.S. and other countries. App Store® is a service mark of Apple Inc.

2.2 Checking the connection type

Depending on the type of appliance and model number, your household appliance is connected to your home network via LAN or WLAN.

- ▸ The model number can be found on the identification plate of the household appliance (corresponds to the first 5 alphanumerics of the serial number).
- ▸ Depending on the model number, connect the household appliance to the home network via LAN (see page 12) or WLAN (see page 10).

WLAN

3.2 Symbol status

The ⇆, v or ! symbols in the display or on the operating panel of your household appliance show the networking state of the V-ZUG-Home module or the data transfer.

Ovens and cookers, steamers, microwaves, washing machines, tumble dryers, dishwashers

Symbol status	Meaning
⇆ or v remains dark.	V-ZUG-Home mode «OFF» or «Display» is enabled.
	The V-ZUG-Home mode «Operate and display» or «Operate» is enabled and the household appliance is in standby mode.
⇆ or v flashes at irregular intervals.	Data transfer is taking place.
⇆ or v flashes every second.	There is no connection between the household appliance and the network right now. The household appliance is trying to connect to the network.
v flashes at very short intervals (only possible with Combair V200 [3] | V400 [3]).	The household appliance is in connecting mode and can be connected to the network.
⇆ or v illuminates.	The V-ZUG-Home mode «Operate and display» or «Operate» is enabled and the household appliance is connected to the network.

Hobs

Symbol status	Meaning
⇆ is not displayed.	V-ZUG-Home mode «Off» is enabled.
! is displayed.	There is no connection between the household appliance and the network right now. The household appliance is trying to connect to the network.
⇆ is displayed.	Data transfer is taking place or the household appliance is connected to the network.

[3] Valid until 31 March 2022

Refrigerating and freezing appliances

Symbol status	Meaning
V remains dark.	V-ZUG-Home mode «Off» is enabled.
V flashes at irregular intervals.	Data transfer is taking place.
V flashes every second.	There is no connection between the household appliance and the network right now. The household appliance is trying to connect to the network.
V illuminates.	Household appliance is connected to the network.

4 Connecting the household appliance via WLAN

Check whether your household appliance must be connected via LAN or WLAN (see page 5).

4.1 Installing the app

- Enable bluetooth and location determination on the smartphone or tablet.
- Search the Google Play™ Store or the App Store® for «V-ZUG».
- Install and open the V-ZUG App.

4.2 Enabling the V-ZUG-Home mode on the household appliance

- Enable either V-ZUG-Home or the V-ZUG-Home mode «Display» / «Operate and display» / «Operate» in the user settings of the household appliance (see page 13).

4.3 Connecting the household appliance to the home network

When establishing a connection, stay close to your household appliance and have the password for your wireless network at the ready.

Ovens and cookers (Combair SL | SLP | XSL | XSLP | V400 * | V600 | V2000 | V4000 | V6000), steamers, microwaves, dishwashers, washing machines, tumble dryers, refrigerating and freezing appliances, hobs

* Valid from 1 April 2022

- In the V-ZUG App, add the household appliance.
  - A bluetooth pairing request appears in the V-ZUG App.
  - A 6-digit PIN appears in the display of the household appliance.
- Enter the 6-digit PIN in the V-ZUG App and confirm the bluetooth pairing request.
  - The name of the active WLAN/Wi-Fi appears in the V-ZUG App and then you are prompted to enter the WLAN/Wi-Fi password.
- Enter the WLAN/Wi-Fi password.
  - The household appliance is connected to the active WLAN/Wi-Fi connection.

You can find further information under home.vzug.com.

Ovens and cookers (Combair V200 ** | V400 **)

** Valid until 31 March 2022

- ▶ Enable the V-ZUG-Home mode (see page 13).
  - – The connecting mode is active for 60 seconds.
- ▶ In the V-ZUG App, add the household appliance.
  - – The name of the active WLAN/Wi-Fi appears in the V-ZUG App and then you are prompted to enter the WLAN/Wi-Fi password.
- ▶ Enter the WLAN/Wi-Fi password.
  - – illuminates if the household appliance is successfully connected to the active WLAN/Wi-Fi.

You can find further information under home.vzug.com.

4.4 Setting up remote access

When establishing a connection, stay close to your household appliance.

To be able to also access your household appliances outside your home network, you need a V-ZUG-Home account.

Creating a V-ZUG-Home account

- ▶ Create a V-ZUG-Home account in the V-ZUG App.
  - – A registration e-mail will be sent to the e-mail account you provided.
- ▶ Go to the inbox of the e-mail account, open the registration e-mail and confirm the e-mail address.
  - – The V-ZUG-Home account has now been created.

Setting up remote access

- ▶ Log into the V-ZUG App with the V-ZUG-Home account.
- ▶ To set up remote access to individual household appliances, follow the instructions in the V-ZUG App.

5 Connecting the household appliance via LAN

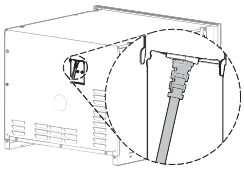
Check whether your household appliance must be connected via LAN or WLAN (see page 5).

V-ZUG Ltd does not supply network cables, powerline adapters or wireless bridges.

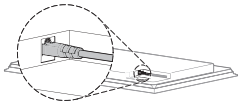
5.1 Connecting the network cable

▸ Connect the network cable to the cable connection for the V-ZUG-Home module.

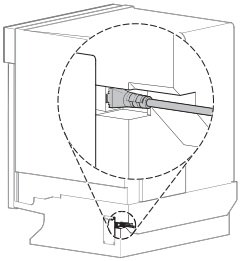
V-ZUG ovens and steam cookers:



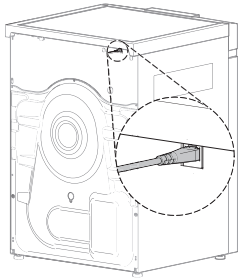
V-ZUG hobs:



V-ZUG dishwashers:



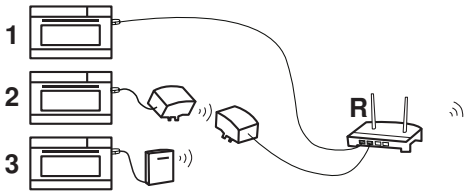
V-ZUG washing machines and tumble dryers:



5.2 Connecting the household appliance to the home network

▸ Use one of the following options for connecting the household appliance to the router **R**:

1 **Ethernet**: Network cable
2 **Powerline adapter**: Powerline adapter and network cable
3 **Wireless bridge**: Wireless bridge and network cable



The wireless bridge must be accessible at all times.

The wireless bridge must be installed not behind the household appliance, but besides it or in an adjacent unit. Connection problems may occur if it is not positioned correctly.

5.3 Enabling the V-ZUG-Home mode on the household appliance

- Enable either V-ZUG-Home or the V-ZUG-Home mode «Display» / «Operate and display» / «Operate» in the user settings of the household appliance (see page 13).

5.4 Connecting the smartphone or tablet to the household appliance

- Search the Google Play™ Store or the App Store® for «V-ZUG».
- Install and open the V-ZUG App.
- In the V-ZUG App, add the household appliance.
  – The household appliance is displayed on the smartphone or tablet.

6 Enabling V-ZUG-Home mode

6.1 Ovens, cookers, steamers and microwaves

Combair SL | SLP | XSL | XSLP, Combi-Steam HSL | XSL, Combair-Steam SL and Combi-Steam MSLQ

- Touch the ⚙ touch button.
  – The user settings menu appears in the display.
- Select the «V-ZUG-Home» user setting.
  – The main V-ZUG-Home menu appears in the display.
- Select «V-ZUG-Home mode».
  – A selection of V-ZUG-Home modes appears in the display.
- Select «Display V-ZUG-Home» or «Operate and display V-ZUG-Home».
- Press the adjusting knob.
  – The setting is saved.
  – The main V-ZUG-Home menu appears in the display.
- For LAN connection: Connect the smartphone or tablet to the household appliance (see page 13).
- For WLAN connection: Connect the household appliance to the home network (see page 10).

Combair V2000 | V4000 | V6000, Steamer V4000, CombiSteamer V4000 | V6000, CombairSteamer V2000 | V6000 and CombiMiwell V2000 | V4000

- Long touch the display.
  – The start screen appears.
- Touch the ⚙ «User settings» and confirm with «OK» if required.
  – The user settings appear in the display.
- Select «V-ZUG-Home».
  – The «V-ZUG-Home mode» submenu appears in the display.
- Select V-ZUG-Home mode «Display» or «Operate and display».
- Connect the household appliance to the home network (see page 10).

Combair V400 * | V600

* Valid from 1 April 2022

- ▸ With the household appliance switched off, hold the button depressed for 5 seconds.
  - – The user settings can now be changed.
- ▸ Press the button repeatedly until HO 0 appears in the digital display.
  - – The light bars for the and symbols flash.
- ▸ Press the button 1× or 2×.
  - – HO 1 or HO 2 appears in the digital display.
  - – The V-ZUG-Home mode «Display» or «Operate and display» is selected.
- ▸ Press the button.
  - – The setting is saved.
- ▸ Connect the household appliance to the home network (see page 10).

Combair V400 **

** Valid until 31 March 2022

- ▸ Hold the and buttons depressed at the same time for about 5 seconds.
  - – flashes.
  - – The connecting mode is active for 60 seconds.
- ▸ Connect the household appliance to the home network within this time (see page 10).

Combair V200 **

** Valid until 31 March 2022

- ▸ Turn the dial to the position.
- ▸ Turn the °C dial clockwise as far as it will go and hold in this end-stop position for at least 3 seconds.
  - – flashes.
  - – The connecting mode is active for 60 seconds.
- ▸ Connect the household appliance to the home network within this time (see page 10).

6.2 Washing machines and tumble dryers

Adora SL | TS WP

- ▸ Hold the button depressed until the serial number (FN) appears in the display.
- ▸ Press the button repeatedly until the following appears in the display: «Configure V-ZUG-Home».
- ▸ Press the 60 / button.
  - – The following appears in the display: «V-ZUG-Home mode».
- ▸ Press the button.
  - – The following appears in the display: «Off».
- ▸ Press the 60 / button / 1× or 2×.
  - – The following appears in the display: «Display» or «Operate and display».
- ▸ Press the button 2×.
  - – The following appears in the display: «Configuration saved».
- ▸ Connect the smartphone or tablet to the household appliance (see page 13).

Adora SLQ | SLQ WP | TSLQ WP, AdoraWash, AdoraDry, CombiAdoraDry

- Close the appliance door.
- Touch the / ... button.
- Touch the button.
  – The user settings menu appears in the display.
- Touch the **1/4** / **1/3** / **1/2** button repeatedly until the / «V-ZUG-Home» user setting appears.
- Touch / «V-ZUG-Home».
  – The main V-ZUG-Home menu appears in the display.
- Touch the / «Mode».
  – A selection of V-ZUG-Home modes appears in the display.
- Touch / «Display» or / «Operate and display».
- Touch the button.
  – The setting is saved.
- For LAN connection: Connect the smartphone or tablet to the household appliance (see page 13).
- For WLAN connection: Connect the household appliance to the home network (see page 10).

6.3 Dishwashers

Adora SL | SL WP

- Hold the button depressed for about 5 seconds.
  – In the display appears: «User settings».
- Press the button repeatedly until the following appears in the display: «V-ZUG-Home mode».
- Press the button 1× or 2×.
  – In the display appears: «Display» or «Operate».
- Press the button repeatedly until the following appears in the display: «Configuration saved».
- For LAN connection: Connect the smartphone or tablet to the household appliance (see page 13).
- For WLAN connection: Connect the household appliance to the home network (see page 10).

AdoraDish

- On the start screen, touch the button repeatedly until «User settings» appears.
- Touch the button.
  – The user settings menu appears in the display.
- Touch the button repeatedly until the «V-ZUG-Home» user setting appears.
- Touch the button.
  – The main V-ZUG-Home menu appears in the display.
- Touch the «V-ZUG-Home mode» button.
  – A selection of V-ZUG-Home modes appears in the display.
- Touch the «Display» or «Operate» button.
  – The setting is saved.
- Touch the button.
  – The main V-ZUG-Home menu appears in the display.
- Connect the household appliance to the home network (see page 10).

6.4 Hobs

- Touch the ⚙ button.
  – The user settings menu appears in the display.
- Swipe and tap to select the «V-ZUG-Home» user setting.
  – The main V-ZUG-Home menu appears in the display.
- Touch «Mode».
  – A selection of V-ZUG-Home modes appears in the display.
- Touch «Display» or «Operate and display».
  – The selected user setting is being saved.
- For LAN connection: Connect the smartphone or tablet to the household appliance (see page 13).
- For WLAN connection: Connect the household appliance to the home network (see page 10).

6.5 Refrigerating and freezing appliances

- Touch the ⚙ button.
  – The main functions and user settings menu appears in the display.
- Touch the ∧ button repeatedly until flashes in the display.
- Touch the OK button.
- Touch the ∧ / ∨ button repeatedly until «On» appears in the display.
- Touch the OK button.
  – appears in the display.
  – The setting is saved.
- Connect the household appliance to the home network (see page 10).

7 V-ZUG-Home configuration

Here, information about the household appliance can be displayed and the V-ZUG-Home settings can be changed.

The displays illustrated are examples.

7.5 Refrigerating and freezing appliances

OF V-ZUG-Home mode «Off» is enabled.

On V-ZUG-Home mode «Operate and display» is enabled.

rS The V-ZUG-Home settings are reset to the factory settings (see page 26).

7.6 V-ZUG-Home factory settings

If you reset the V-ZUG-Home settings to the factory settings, depending on the connection type (see page 5) different settings are reset.

WLAN

If your household appliance must be connected via WLAN,
- automatic IP address assignment (DHCP) is enabled in the network settings and the set WLAN (SSID/PSK) is deleted,
- password protection is disabled,
- the push message history is deleted,
- the list of all connected bluetooth appliances is deleted.

LAN

If your household appliance must be connected via LAN,
- automatic IP address assignment (DHCP) is enabled in the network settings,
- password protection is disabled,
- the push message history is deleted.

8 Trouble-shooting

This section lists faults that can be solved simply by following the instructions given. If another fault is displayed or the fault cannot be remedied, please call Customer Services.

8.1 Via WLAN-connected household appliances

Malfunction	Possible cause	Solution
The V-ZUG App does not detect the new household appliance.	▪ The V-ZUG-Home mode «Off» is enabled.	▶ Enable V-ZUG-Home mode «Display» or «Operate and display» / «Operate» (see page 13).
	▪ If the problem could not be resolved:	▶ Restart the interface in the V-ZUG-Home user settings (see page 16). ▶ Disable and re-enable bluetooth on the smartphone or tablet.

Malfunction	Possible cause	Solution
The V-ZUG App cannot establish a connection between the household appliance and the wireless network after entering the PIN.	▪ The smartphone or tablet and the household appliance are not in the same wireless network.	▶ In the V-ZUG App, select the wireless network over which the smartphone or tablet is also connected.
	▪ If the problem could not be resolved:	▶ Remove the household appliance from the V-ZUG App. ▶ Add the household appliance to the V-ZUG App again. ▶ Restart the interface in the V-ZUG-Home user settings (see page 16). ▶ Delete the household appliance in the bluetooth settings of the smartphone or tablet and reconnect the household appliance via WLAN (see page 10).
or is not illuminated or is not displayed.	▪ The V-ZUG-Home mode «Off» is enabled.	▶ Enable V-ZUG-Home mode «Display» or «Operate and display» / «Operate» (see page 13).
or does not stop flashing or ! does not stop illuminating even though the V-ZUG-Home mode «Operate and display» / «Operate» is enabled.	▪ The household appliance is not connected via WLAN. ▪ The WLAN is no longer accessible.	▶ Connect the household appliance via WLAN (see page 10).
	▪ Data transfer is taking place or software is being updated.	▶ No remedy necessary.
When you log into the V-ZUG-Home account, the e-mail address or password is not recognized.	▪ No V-ZUG-Home account has been created in the V-ZUG App yet.	▶ Create a V-ZUG-Home account in the V-ZUG App (see page 11).
	▪ The login of the online portal (www.vzug.com) was used.	▶ Use the login of the V-ZUG-Home account.
There is no registration e-mail in the inbox of the e-mail account to create the V-ZUG-Home account.	▪ The registration e-mail is in the spam or trash folder of the e-mail account.	▶ Check the spam or trash folder of the e-mail account. ▶ Open the registration e-mail and confirm the e-mail address. – The V-ZUG-Home account has now been created.

8.2 Via LAN-connected household appliances

Malfunction	Possible cause	Solution
is not illuminated or is not displayed.	▪ The V-ZUG-Home mode «Off» is enabled.	▶ Enable V-ZUG-Home mode «Display» or «Operate and display» / «Operate» (see page 13).
does not stop flashing or ! does not stop illuminating even though the V-ZUG-Home mode «Operate and display» or «Operate» is enabled.	▪ The network cable is not connected to the cable connection for the V-ZUG-Home module.	▶ Check all network cable connectors and connect the household appliance via LAN (see page 12). ▶ Call Customer Services if the cable connection is not accessible.
	▪ Error in home network.	▶ Check internet connection via smartphone or tablet. ▶ Call network technician.
	▪ Data transfer is taking place or software is being updated.	▶ No remedy necessary.
